

FPO POINT PAPER

CENTRAL INTELLIGENCE AGENCY
WASHINGTON, D.C. 20505

03 NOV 1983

Mr. Alvin C. Turner
Director, Federal
Protective Service Division
GSA, National Capital Region

Dear Mr. Turner,

As you know, the vacancy rate for Federal Protective Officers assigned to CIA facilities in the Washington, D.C. area continues to remain at over 35%. CIA has received no files on prospective applicants from GSA since July 1983. In July 1983, GSA submitted only 5 applications to CIA. Furthermore, of the 60 some applicants now undergoing security processing by CIA, no more than 15%, or 7 individuals, are expected to be security approved.

The CIA Office of Security continues to believe that this vacancy rate is unacceptable. As you know, this situation has resulted in extensive overtime which has adversely affected FPO performance at our facilities.

Please advise our office in writing of FPS intentions toward resolving this situation.

Chief, Headquarters Security Branch
